AN EARTHQUAKE.

Wild Alarm Caused in all the Eastern Cities.

FROM ONE TO THREE SHOCKS FELT

People Everywhere Rush from their Homes and Beds into the Streets—A Big Scare with Little Damage

AT WASHINGTON.

WASHINGTON, Aug. 31.—At 9:55 o'clock to-night the desks in the associated press office in the Corcoran building began to vibrate in a peculiar but unmistakable fashion that suggested an earthquake. A few minutes later the janitor reported that the upper stories of the building were rocking back and forth, and the night manager of the Western Union telegraph office made a similar announcement, with the additional information that the clock on the western wall of the room had stopped. A telephone message from a gentleman connected with the associated press office who lives on Massachusetts avenue, and from other points in the city, reported that ornaments on mantel pieces were rattling. The telegraph operators in Atlanta a few minutes before this had notified the Washington operators that the shock was coming, and the local operators ... [illegible] ... as a joke.

WASHINGTON, Aug. 31.—Prof. Simon Newcomb's ... [illegible] ... regarding the earthquake. The first shock occurred at 9 ... the second shock at 10:30 and lasted until ...

Two shocks occurred. The second shock was of longer duration and more severe than the first, and a few seconds later. It was felt in all parts of the city and created considerable consternation. Several meetings in progress in various parts of the city were broken up by frightened ... thinking the buildings were falling, and rushed from the halls into the streets.

At Albaugh's opera house the large audience became frightened by the shaking of the building and stampeded. The occupants of the galleries, mainly men, jumped to their feet as soon as the shaking began and rushed pell mell down stairs, falling over one another in their efforts to escape from the building, and stopped for nothing until they reached the street. The audience in the lower part of the house was composed principally of ladies, but they were less frightened than the galleries, and very few left their seats. The performers went on with their pieces and quiet was soon restored. No one was injured. People on the street did not feel the shock, and the first knowledge they had of the occurrence was obtained from the sight of frightened people.

THE EARTHQUAKE FORETOLD.

WASHINGTON, Aug. 31.—Officials of the signal service bureau report that four distinct shocks were felt here. The first began at 9:54 and lasted forty seconds. The second shock was felt at 10:04 and was followed by another at 10:10 and by a fourth at 10:... Prof. Capen, weather prophet of this city, predicted in the *Republican* several days ago that a terrific earthquake shock would be repeated about this date. He says that it is possible that there will be another about 2 o'clock to-morrow morning. When the shock came to-night Capen was in the *Republican* office writing his predictions for to-morrow. As soon as the building began to shake the reporters and compositors on the *Republican* and the *Post*, which are in the same building, all ran but Mr. Capen remained at his desk in blissful ignorance of the fact that his prediction had been fulfilled.

Sevellon Brown, chief clerk in the state department, was in Albaugh's opera house when the stampede occurred, and it is probably due to his presence of mind that no lives were lost. When the panic took possession of the galleries Mr. Brown stood up in his box and shouted to the people to keep their seats.

AT INDIANAPOLIS.

INDIANAPOLIS, Aug. 31.—At 8:55 standard time a shock of earthquake was distinctly felt in this city. Opinion differs as to the duration of the shock, but a majority of persons put it at about thirty seconds. The shock did not appear to cause the swaying motion noticed in the earthquake of two years since, but was of a tremulous, quivering character. A large piece of cornice on the Denison hotel was ... from the Wabash street front and fell to the pavement near striking a passer by. Guests of the house rushed from their rooms in alarm, and similar scenes were witnessed in a number of other buildings. The watchman on duty in the court house tower, an elevation of more than 100 feet, found himself swaying in such an alarming manner that he concluded to seek safety at a point nearer the earth. No damage has yet been reported except the falling of the pieces of the Denison house cornice. The *Journal's* specials indicate that the shock was general throughout the state.

At Terre Haute two distinct shocks were felt. The shocks were about ten seconds apart and each of about twenty seconds duration. Windows were rattled and in some cases plastering was dislodged from ceilings. A large audience was present at the opera house attending a minstrel show. The building shook until the people became panic stricken, being under the impression that the structure was about to fall. Those in the galleries felt the shock most severely, and they rose and made a rush for the exits. The crowds in the other parts of the house followed—women screamed and there was a struggle and crush for the doors. Almost the entire audience fought their way to the street. Several policemen who were present stood in the doorways and attempted to keep the frightened people back. One man was pushed over the gallery, but saved himself by catching a railing. No one was seriously hurt. Reports from various quarters of the city state that sleepers were awakened by the swaying of beds and rattling of windows.

AT CLEVELAND.

CLEVELAND, Aug. 31.—At 9 o'clock standard time this evening three perceptible shocks were felt in this city. The vibrations were from east to west and the shocks lasted about one minute. High buildings swayed, windows rattled and people ran excitedly into the streets. Morning newspaper offices were emptied of editors and printers within half a minute after the shock was felt. At the opera house and Academy of Music people were startled by the swaying of chandeliers, and at once stampeded for the street. Nearly every person left his seat, but nobody was hurt in the rush. Everybody was frightened, but only few realized that an earthquake was the cause of the commotion. Many supposed that a violent explosion had occurred somewhere in the suburbs and newspaper offices were besieged by crowds of curious people to learn what had happened. Guests at hotels left their rooms in confusion. At the Lincoln, a large five story apartment house, the wildest excitement prevailed. Men and women rushed through the halls and several ladies fainted through fright. People playing billiards were astonished to see the balls roll about the table. Clocks whose pendulums swung east and west stopped at half past nine local time. Of the hundred occupants of the Dome apartment house ... into the street in confusion, many being but half dressed. No damage was done to buildings. Dispatches from surrounding towns report that the shock was felt in all sections of northern Ohio.

AT DETROIT.

DETROIT, Aug. 31.—At 9 o'clock to-night a shock of earthquake caused considerable excitement in this city. It was of short duration but distinct, and was felt in different points of town. In the *Free Press* building the editorial force made a stampede for the street while in the composing room the weekly men all stopped work, but those on piece work kept right on.

DETROIT, Aug. 31.—Three minutes before 9 o'clock to-night an earthquake shook large buildings in this city and created considerable excitement. Second and third shocks followed, the three extending over a period of three minutes. The wave went from west to east and was felt in all parts of the city, especially on high buildings. Chairs, tables, pictures and gas fixtures were shaken perceptibly, and persons in their feet were nearly thrown down. A few who were in their offices were somewhat terrified. In the newspaper offices work was temporarily suspended. The *Free Press* editorial force stampeded, leaving the house in the best time on record. In a short time reports were telephoned from different buildings in the central part of the city and also from the suburbs to the same effect.

AT CINCINNATI.

CINCINNATI, Aug. 31.—At 9:10 P. M. a shock of earthquake was felt here. The printers in the ... started to run down stairs, thinking the building was falling. The shock was quite perceptible at the telephone exchanges and in other buildings, but it was not noticed much by persons on the streets.

Officers and reporters at police headquarters in the city building made a stampede from the shaky building into the street, as the building has been expected to collapse for several years. At all the hotels there was more or less fright and confusion, but no casualties. The same may be said of the theatres. ... a panic was narrowly avoided. ... All the clocks in the Western Union ... stopped at 8:54 standard time. Probably the worst scare of the night was in the composing room of the *Commercial Gazette* office. The swaying terrified the printers and a dozen or so jumped out of windows to the roof of an adjoining building, a distance of six feet. One of them was ... but was not seriously hurt.

AT RALEIGH.

RALEIGH, N. C., Aug. 31.—Shocks were felt here at 9 and continuing nearly six minutes. Buildings rocked, walls cracked, floors broke loose from their supports, chimneys fell and lamps were overturned. The motion of the earth was very decided. The streets rapidly filled with people and the screams of frightened persons could be heard. The negroes were in great fear. Such decided shocks were never before felt here. Reports state that shocks were felt all over the state. At Wilmington they were very severe and came near wrecking several buildings.

It is safe to say that no such alarm was ever known here as this earthquake has caused.

The shock of earthquake here rang church bells. It also threw down plastering and rang door bells in houses. A second shock came at 10:07 and lasted about half a minute. The third shock did not come until 10:40 and was very light. It shook houses very sensibly, however. The movement of the earth was from the west and was very perceptible in the first shock. Houses soon acquired the swinging or oscillating movement, the steadiness of which was remarkable. There was a pause of a quarter of a minute in the first shock when the earth seemed if the house could be used to balance itself. The excitement at this hour (10:40) is not at all abated. Very few people are asleep and nearly all houses are deserted. Some people will remain out of doors all night, no doubt, through fear.

AT AUGUSTA.

AUGUSTA, Aug. 31.—A severe shock was felt here at 9 o'clock to-night, followed at intervals by four other shocks. The people ran into the street and the principal thoroughfares are now filled with frightened people. The town is wild with excitement. The shocks continue. Signal Officer Williams reports ten distinct shocks—at ... 10:01, 10:06, 10:23, 10:31, 10:4... [illegible] ... twenty fifth ... [illegible]

AUGUSTA, Sept. 1.—All the bridges here are safe. Slight shocks continued to be felt as late as 1:03 A. M. The town is still terribly excited. Thousands of people are in the streets and no one is sleeping in Augusta to-night.

All along the South Carolina railroad ... [illegible] ... miles from Charleston the earthquake ... [illegible] ... washed away ... [illegible] ... water.

AT CHICAGO.

CHICAGO, Aug. 31.—Fluctuations on the ... barometer in the signal office here this evening caused the man in charge to pause in the middle of an observation. His hands, he noticed, trembled ... and he thought himself ill. The rattling of a large chair in the middle of the room and the rattling of ... [illegible] ... that an earthquake was in progress. The first wave began ... at 9:... P. M. and lasted several seconds. Its motion was from west to east and there were about three or four vibrations ... [illegible] ... The barometer went up 1-100 of an inch in seven minutes. Soon after the shock it marked ... [illegible] ... rapidly. The effects of the shock were not generally noticed in Chicago, except in the upper stories of tall buildings. Persons who happened to be conversing by telephone at the time suddenly found themselves ... [illegible] ... the trouble was in ... [illegible]

AT COLUMBUS.

COLUMBUS, O., Aug. 31.—Reports are coming in from all over the city that the shock of an earthquake was distinctly felt about 8:5... It was most perceptible in the larger buildings. At the central asylum for insane, the largest building for the same in the world, furniture was turned around, and the patients became so alarmed that the attendants had trouble in getting them to return to their wards. At the institute for the blind the shock was so strong that rocking chairs on the floor were made to start in motion and chandeliers were swayed to and fro with such force that they continued for some time afterward in motion. These are samples of the sensation. The teachers at the blind institute refused to return to their rooms after running to the main audience room below. At this point it was accompanied by a low, heavy rumbling sound. The damage at the blind institute was ... local.

AT RICHMOND.

RICHMOND, Va., Aug. 31.—At 10:01 to-night a severe shock of earthquake was felt in this city, creating the greatest excitement known here for many years. The shock lasted about three minutes, and men, women and children who had retired jumped from their beds and ran out of doors. Ex-State Senator Atkinson says glasses and other articles on his mantel were dashed to the floor. People in bar rooms said they thought they were drunk as their feet became unsteady, decanters and glasses clinked, and consternation prevailed for a while. Broad and Main streets are yet lined with excited people. The guards at the Virginia prison, in their fright, opened the cells of the prisoners and it is now said the prisoners are frightened and unruly. The militia of the city has been called out and there is the wildest state of excitement throughout the place.

AT LOUISVILLE.

LOUISVILLE, Aug. 31.—At 9 o'clock city time a severe shock of earthquake was felt all over the city, lasting about thirty seconds. In the tall ... of the large *Courier Journal* building the first motions were very decided oscillations north and south, which settled into vibrations. A general stampede occurred, and people left their ... and ran into the streets all over the city. Several public meetings were broken up and the audiences rushed wildly frightened into the streets. The streets were crowded with fear stricken inhabitants, who would not go in doors until after the second shock, which occurred fifteen minutes later. Furniture was moved and windows and lamps were broken in various hotels, but no serious damage is reported. A report that the Bourbon house had been overturned is without foundation.

AT COLUMBUS.

COLUMBUS, Ga., Aug. 31.—A terrific shock of earthquake to-night has shaken buildings fearfully, and since then there have been ten distinct shocks, but none very heavy. The first shock lasted fully three minutes and it looked as if buildings would be shaken down in different parts of the city, but so far no casualties are reported. The streets were filled with people getting away from their shaking houses, and children were in terror. A large political meeting was being held in the court house, but it adjourned in a panic. The walls of the court house were cracked at the partition back. Colored people assembled in the streets praying. At this hour 10:30 P. M. people are congregated on the streets ... [illegible] ... fearing a recurrence of the earthquake.

AT SAVANNAH.

SAVANNAH, Aug. 31.—The ... [illegible] ... of the city were thoroughly terrified and rushed from their houses into the streets and ... for open squares and other places where they would be out of danger from falling buildings. The negroes were particularly demonstrative, and ran about the street wringing their hands and giving vent to exclamations of terror. Several chimneys fell at ... [illegible] ... buildings suffered ... damage ... [illegible] ... No buildings were demolished so far as yet known ... [illegible] ... injury to person reported. Dispatches from ... [illegible] ... in this city.

AT MEMPHIS.

MEMPHIS, Aug. 31.—A violent shock of earthquake was experienced here at 9 ... to-night. Its motion was from north to south, and it lasted fully ten seconds. It had a rapid oscillating movement. Great consternation was felt, and many who were within their offices and residences fled to the street. A number who had retired feeling the shock rushed out of their dwellings not waiting to dress themselves. Guests at the ... hotel hurried down stairs, thinking the building was falling. It was the same all over the city, and many women went into hysterics. It was the severest shock ever experienced in this section of country.

AT ST. LOUIS.

ST. LOUIS, Aug. 31.—A very distinct earthquake shock was experienced in this city this evening, at 9 o'clock, and lasted for about a quarter of a minute. The shock was not at all violent and resembled the motion of a series of water waves. Guests occupying upper rooms of the Southern and Lindell hotels rushed down stairs badly frightened, fearing that some catastrophe was about to occur. In Masonic hall, where a company of Knights Templar were drilling, pictures swung inward from the walls. The shock was also felt in the *Missouri Republican* building and at other places throughout the city. No casualties have yet been reported.

AT MILWAUKEE.

MILWAUKEE, Aug. 31.—Large buildings were shaken to their foundations about ... to-night by an earthquake shock that lasted nearly a minute. People fled in affright to the street. Windows were broken in numerous buildings and pictures fell from walls. No particular damage was done. The shock was felt only in the larger buildings and only in the central part of the city. It was most severe in the fourth ward, the fashionable residence district.

AT NEW YORK.

NEW YORK, Sept. 1.—In New York and Brooklyn the shock was but generally felt except where there was quietness and on high ground or in high buildings. There was a stampede in an east side tenement house, during which a fire alarm was turned in. Electric lights in some instances went out. At this writing (2 A. M.) the situation so far as known can be summed up in two words: No body hurt.

AT MEADVILLE.

MEADVILLE, Pa., Aug. 31.—At 10 P. M. a shock of earthquake was felt, followed immediately by a lighter shock, the whole lasting about twenty seconds. The streets were at once filled with people. Guests rushed out of hotels in their night apparel, women and children were crying and screaming, and every one was more or less alarmed. As far as learned no damage has been done.

CHARLESTON SHUT OFF.

CHARLESTON, W. Va., Aug. 31.—At 9:53 an earthquake shock was felt here. It was very severe, lasting fully three minutes. Many people who had retired for the night were so frightened that they arose and ran from their houses. There were a number of chimneys toppled over, but at this hour no further damage or deaths are reported. This is the first shock of earthquake ever experienced in this section. Great excitement exists and the people of the city are sitting up, waiting another shock and final results.

AT CHARLESTON.

NEW YORK, Sept. 1—2:15 A. M.—There has been no communication from Charleston. A bridge that has fallen down carried the telegraph wires into the city. A report has been received from a point twenty five miles from the city that the railroad tracks leading from there to Charleston have been shattered ... [illegible] ... into Charleston is reported submerged. Is Ravenels ... place on the Savannah & Charleston railroad, eighteen miles distant from the city. It is probable that the part of the track now under water has been covered by a heavy rise in the river. Telegrams from cities in South Carolina and Georgia say the utmost consternation prevails on account of the non receipt of news from Charleston, and many fear that a fearful calamity has happened there.

AT DETROIT.

DETROIT, Aug. 31.—An earthquake shock was felt here at 8:5... It shook the buildings severely. Part of the audience in the opera house ran out, and for a moment there was a scene of confusion. Printers in the top story of the *Herald* office ran from the building and guests ran from the upper rooms of hotels.

AT MOBILE.

MOBILE, Ala., Aug. 31.—Mobile had a very light shock. The movement was from the southwest. It was noticeable in the top floors of houses, making chandeliers swing and giving the people a distinct sensation of moving from side to side. The shock only occurred, lasting about two seconds.

AT BALTIMORE.

BALTIMORE, Aug. 31.—The shock was most distinctly felt by people living in the eastern section of the city, which is on high ground. It was accompanied by a rumbling sound, and for a few moments the inhabitants were considerably alarmed, many rushing wildly into the streets.

AT CHATTANOOGA.

CHATTANOOGA, Tenn., Aug. 31.—A decided shock was felt here which lasted fifty twenty seconds. The lights in the *Times* building, a stone structure, swayed to and fro ... [illegible] ... Considerable excitement was created in the city.

AT CLEVELAND.

CLEVELAND, Aug. 31.—An earthquake shock was felt here about 10 ... [illegible] ... buildings swayed perceptibly. No damage is yet reported. People left their houses and ran into the street and great excitement prevails.

AT NASHVILLE.

NASHVILLE, Aug. 31.—Two distinct shocks ... [illegible] ... and the other at ... It was very perceptible in the tall buildings ... [illegible] ... the people.

NEW ENGLAND ESCAPES.

NEW YORK, Aug. 31.—Advices from Boston say ... the shock was generally felt there this evening. New England cities with one or two exceptions report that they experienced any unusual ... [illegible]

AT HUDSON.

HUDSON, N. Y., Aug. 31.—Here buildings creaked and people were awakened from their slumbers. A second shock was felt at 10:15, lasting about two seconds. The vibrations of both shocks were from east to west.

AT LYNCHBURG.

LYNCHBURG, Aug. 31.—A very pronounced shock was felt here. Houses swayed, bricks were shaken from chimneys and many people ran from their beds into the streets.

AT CHARLOTTE.

CHARLOTTE, N. C., Aug. 31.—A severe shock was felt here. Several chimneys were demolished and the greatest excitement prevailed.

AT LEXINGTON.

LEXINGTON, Aug. 31.—A slight shock of earthquake was felt in this city at 8:5... P. M. The vibration lasted fifteen seconds.

OUR RIGHTS IN BEHRING SEA

Questions Raised by the Recent Seizure of Two Canadian Vessels

NEW YORK, August 31.—A Washington special to the *Post* says: A new point has been raised in connection with the seizure by a United States revenue cutter of two Canadian vessels in Behring straits on the ground that they were catching seals in waters ceded to the United States by Russia. One of these vessels is said to have been captured sixty five miles and the second 120 miles from the nearest land. The point made is that if Russia had a right to convey to the United States, as it did, by the terms of its treaty in connection with the sale of Alaska, the greater part of Behring strait, will any foreign government recognize such right under international law? If the United States has a right to prohibit British fishermen from taking fur seals 120 miles from land, has not the United States the same right to prohibit British or Norwegian whalers from taking whales within the same seas? Our treaty rights in Behring sea have never been tested. It is possible that the action of these two Canadian vessels by our revenue cutter may bring these rights into dispute.

Inquiry was made at the state department to-day to ascertain whether the department had considered the matter. Assistant Secretary Porter said that the subject has not yet been brought to the official attention of the state department. It was wholly under control of the treasury department, where it will likely to remain unless the owners of the Canadian vessels should complain to their government and Canada should in turn report to the British government and the subject in this manner be called to the attention of the state department.

EASTERN NEWS ITEMS.

ADULTERATION OF MILK.

CHICAGO, Aug. 31.—An article printed here to-day says a man giving his name as George Lawrence, claiming to reside in San Francisco, together with one or two confederates, has been endeavoring to sell milk dealers a receipt for adulterating milk. The receipt is as follows: Three ounces protoxide of soda, twenty four ounces salt, ... ounces bicarbonate soda, sixteen ounces glycerine, eighty ounces salt and fourteen pounds sugar. Directions: Mix with twenty four gallons of water and let stand for four or five hours. To each gallon of the mixture add five gallons of water. The process is to fill the can one half full of milk, add a quantity of the decoction and fill the jar with water. An experiment showed that the quantity of milk could be doubled, and the adulteration was difficult of detection. Lawrence was asking $600 for the receipt and claims having sold it to San Francisco milk dealers and in other cities of the west. The attention of the city health commission has been called to the matter. It is claimed that the mixture is injurious to the human system.

A DISTINGUISHED PARTY.

DENVER, Aug. 31.—A distinguished party of tourists arrived in Denver this evening by special car over the Denver & Rio Grande railroad. The party consists of Hon. George West, congressman from the Saratoga district, New York; Senator J. W. Askell and wife, New York; Charles Graham of *Harper's Weekly*; W. J. Askell, president of the ... Publishing company, and the Albany ...; James H. Manning, son of Secretary Manning, managing editor of the Albany *Argus*; Hector Hart of Pennsylvania; Miss Askell ... [illegible] ... of the Albany *Journal*; A. G. Richmond and wife ... Burant and wife, New York. They will ... here two or three days visiting places of interest in the state and then go to San Francisco.

THE NORTHERN PACIFIC ELECTION.

NEW YORK, Aug. 31.—Although the ticket to be voted for at the Northern Pacific election next month is not yet made up, it is certain there will be some changes. It is reported that N. P. Hill ... [illegible] ... the Oregon Transcontinental ... [illegible] ... the probable candidate for ... seat. It is understood that John H. Rockefeller of the Standard Oil company has been a large purchaser of the company's stock recently, either for himself or the company with which he is identified. His holding of stock is estimated to be in the neighborhood of 50,000 shares.

WILL OF SAMUEL COLVILLE.

NEW YORK, Aug. 31.—The will of Samuel Colville, theatrical manager, was filed to-day. It is dated October 1, 1882. The will reads: "I give and bequeath to my sincere and attached friend and companion, and whom it is my desire to make my wife, Erne Roseau, $50,000." All the remainder of the estate is bequeathed to his son David F. Colville. The estimated value of the estate is $160,000. Erne Roseau mentioned in the will afterwards became the wife of Colville. Yesterday she with the son waived all rights and will not contest the will.

A BOSTON FAILURE.

BOSTON, Aug. 31.—Nichols & Farnsworth, dealers in shoe manufacturers goods, have suspended. The firm carried on business for many years and ranked with the leading houses in the trade. The cause of the failure is attributed to operations of Farnsworth, for whom the firm indorsed to a large extent. The firm dissolved yesterday by the withdrawal of Farnsworth, who has filed a voluntary petition in insolvency on his individual account. The liabilities are heavy, but no estimates are given.

SONS OF VETERANS.

BUFFALO, Aug. 31.—The fifth annual convention of the national encampment of the Sons of Veterans, G. A. R., opened here to-day. Delegates from twenty states were present. Gen. Walter S. ... of Ohio is commander in chief. Fred Grant was expected to attend, but telegraphed that he was ill and could not come.

FIRST TRIP.

NEW YORK, Aug. 31.—The new steamship ... of the Southern Pacific company left this afternoon on her first trip for New Orleans with a full cargo of New Orleans, Texas and California freight. This is the tenth vessel of this line.

STEAMER MOVEMENTS.

NEW YORK, Aug. 31.—Arrived: Steamers Wyoming, Devonia, Grecian Monarch and Elbe.

LONDON, Aug. 31.—Arrived: Steamer ...

TIRED OF FLOODS.

GALVESTON, Aug. 31.—Indianola's last ... [illegible] ... a great number of its people have decided to seek homes elsewhere.

A little fire is quickly trodden out,
Which being suffered rivers can not quench.
Procrastination may rob you of time, but by increased diligence you can make up the loss; but if it rob you of life the loss is irremediable. If your health is delicate, your appetite fickle, your sleep broken, your mind depressed, your whole being out of sorts, depend on it you are seriously diseased. In all such cases Dr. Pierce's "Golden Medical Discovery" will speedily effect a genuine radical cure—make a new man of you and save you from the torture of lingering disease.

EUROPE'S PERIL.

Gloomy Prediction of the Greatest War of the Century.

RUSSIAN PLANS TO BE CHECKED

An Interview with Degiers, Russian Foreign Minister—Prince Alexander Joyfully Received at Tirnova—Foreign Notes

NEW YORK, Aug. 31.—The *Times'* London correspondent telegraphs: To-night I learn details of what the world is likely to learn much to its interest within a few days. The conclusion my informant draws from it is that the great war of the century is close at hand. The facts come to me from a gentleman who dined at Jugenheim with Ramberger's father on Saturday night and in part from a diplomat temporarily here. For the purpose of consultation. At the Franzensbad interview M. Degiers urged Prince Bismarck earnestly to prevent Prince Alexander's return to Bulgaria. Bismarck declined to commit himself, took the matter *ad referendum*, and shortened the interview most abruptly, and a great amount of telegraphing to Vienna, London and Constantinople ensued. Whether M. Degiers got an answer before his unexpectedly hasty departure is not known, but the result was that Prince Alexander was not restrained from going to Bulgaria.

Lascelles, British consul general, who was spending his vacation here, started post haste for Sofia the same night to represent England ... rests in the trying time now at hand.

It is hinted that Sir William White, who ... never to have been removed from Constantinople, will go there next week as temporary ... Sir Edward Thornton, and Mr. Lascelles ... Prince Alexander to force ... [illegible] ... who is reported to be on the way to Sofia, will be received coolly, with strict courtesy, not affronted or recognized. But there is doubt whether he will really go to Sofia. The secret information here is that he is likely to go to Athens and thence to Macedonia. It is known that Russian gold has been going in great quantities through Greece to foment a rising in Macedonia, which is expected to occur daily.

WAR CONSIDERED INEVITABLE.

It is believed to be certain that the powers of Germany, Austria and England have urged Turkey ever once more and that the porte will authorize Alexander as tributary prince to enter Macedonia under it and incorporate it as part of his dominions, held under the porte with a view to the event of formation of the kingdom of Bulgaria. Against this plan is set the practical certainty that Russia will attempt to occupy Bulgaria, when she will be resisted by Turkey, Roumania, Bulgaria and Austria. This will enable Germany to hold aloof, keep France in awe and satisfy the kaiser, whose scruples have long delayed a collision between the Teuton and the Muscovite. My informant lays great stress upon the strength and sufficiency of these scruples, but believes the kaiser in wrath at the piratical indignity offered Prince Alexander has consented to let Austria and Turkey undertake the task of chastisement.

Short and heated diplomatic work is coming. England is believed to be ready to assume the lead, and it is far more probable than it was Saturday that eventually she will take a hand in the fight. It is a serious fact that the most trusted men in the English foreign service believe to-night that war is inevitable. Two war correspondents of London papers start for Bulgaria to-morrow.

RUSSIA TO BE CHECKMATED.

NEW YORK, Aug. 31.—The *Herald's* Cologne dispatch says: The Cologne *Gazette* publishes the following dispatch from its correspondent at Adrianople: The Turkish army is being hastily prepared for war. A Vienna diplomat of this city told me that if Prince Alexander proceeds in his purpose, which is to establish a triple alliance with Servia and Roumania, the anger of the czar would be of little avail. Setting aside the 100,000 soldiers of the triple alliance, Turkey would step into the field for Bulgaria, and Austria for Servia. In case Russia should be aggressive Germany would also be bound according to the provisions of the treaty, to assist Austria. The exceedingly friendly reception of the prince by the officials of Roumania and the reported expressions of friendship made by King Milan with reference to the person of the prince, expressions which indeed are not in harmony with the Servian invasion of the previous year, seem to substantiate the above views.

From Bucharest is learned the following circumstance: When Prince Alexander had arrived at the railway station there appeared Russian agents and Bulgarian attorneys who belonged to the Russian party. These, however, ... [illegible] ... and police had to leave the city at once.

INTERVIEW WITH DEGIERS.

BERLIN, Aug. 31.—The correspondent of the *Tageblatt* at Franzensbad has had an interview with Degiers in which the Russian foreign minister stated that he would return to St. Petersburg September 3. He would go by way of Berlin and would have another conference in that city with Bismarck. Nothing has been decided upon regarding Bulgaria at his present interview with the chancellor, as it was not known that Alexander would return to Sofia. Degiers said he did not know what the czar's present intentions were, but he said Russia would not occupy Bulgaria while that country was tranquil. Russia's position would be very delicate and critical should Alexander insist upon the execution of the men who led the conspiracy against him. Degiers spoke in condemnation of Alexander's course, and, alluding to England's action in the premises, he said she used everything that came within her reach as an instrument against Russia.

ALEXANDER JOYFULLY RECEIVED AT TIRNOVA.

TIRNOVA, Aug. 31.—Prince Alexander's journey here from Sistova was a series of ovations. The people headed by the priests flocked to different points of the route of the procession and greeted the prince with joyous shouts of welcome. A large crowd left Tirnova to meet the prince at a point five miles distant and escorted him into the town amid great enthusiasm. An address of welcome was presented in behalf of the people. ... [illegible] ... congratulated Tirnova upon having ... [illegible] ... and that Alexander will probably proceed to Philippopolis to-day.

IT IS FRANCE THAT WORRIES GERMANY.

BERLIN, Aug. 31.—The *North German Gazette* reiterates that Germany hasn't ... interest in Bulgaria. It says it is not worth while to keep a single German soldier under arms on account of Bulgaria. The necessity for Germany to ... France ... [illegible] ... paper the *Gazette* says proves that France is making ... preparations to fight and that numbers ... [illegible] ... Germany must keep her eyes fixed upon France.

AN APPEAL TO RUSSIA.

BUCHAREST, Aug. 31.—The leaders of the conspiracy against Prince Alexander, including the ... [illegible] ... have taken refuge in this city. The government has decided to expel them and has notified the refugees that they must leave. The conspirators, through ... the Russian legation ... [illegible] ... Telegrams were passing between the legation and St. Petersburg all of last night. Alexander will arrive at Philippopolis to-morrow.

ALEXANDER NOT SAN ... [illegible]

PARIS, Aug. 31.—A dispatch from Berlin says Prince Dolgorouki will not go to Bulgaria. The Russian officers who were in the Bulgarian army prior to the *coup d'etat* will not re-enter Prince Alexander's service. The dispatch also says that Prince Alexander is not at all sanguine of restoring order, and would abdicate only that he is encouraged by England to persevere.

RUSSIAN PRESS COMMENT.

LONDON, Aug. 31.—Dispatches from St. Petersburg state that leading Russian papers affect to have great fears concerning the fate of Bulgaria, where, to quote the language of one of them, there are two governments and two armies menacing each other with civil war. The speedy pacification of Bulgaria declares another of these papers concerns other powers besides Russia. The *Novoe Vremya* declares that Alexander must be prevented from returning to Sofia, and says all Russians would enthusiastically support any steps which Russia might take to prevent him.

MEXICO.

A MOVE BY THE LONDON BANK.

MEXICO, Aug. 31.—The London bank has bought a concession and secured entire control of the Banco de Empleados. This will have the effect of placing the latter institution on a firmer foundation than ever owing to the bank's having a right to issue bills, which has been disputed, and securing other valuable rights and privileges. This action on the part of the London bank will undoubtedly help the continued investment of English capital, whereas had the bank failed to secure the continued circulation of its bills it would have probably wound up its affairs and withdrawn from the country.

INVESTMENT OF ENGLISH CAPITAL.

CITY OF MEXICO, Aug. 31.—A powerful company of English capitalists, with headquarters in London, has got possession of an old concession for a railroad from Tuxpam to this city and will build a road which it is calculated will involve an expenditure of at least $25,000,000. This is the most important investment of English capital ever made in Mexico.

SEDGWICK AT WORK.

CITY OF MEXICO, Aug. 31.—Sedgwick, the special American envoy, had another consultation with Minister Jackson yesterday for the purpose of procuring data for his report to Secretary Bayard in the Cutting case. Nothing is said regarding rumors in circulation concerning Sedgwick. Minister Jackson has taken no part in the matter.

ANOTHER DENIAL.

MEXICO, Aug. 31.—The manager of the Iturbide hotel has furnished a letter, in which he denies reports against his guest, Mr. Sedgwick, asserting that that gentleman returned to his hotel at an early hour after the ball, free from signs of intoxication, and retired to his room, behaving in a gentlemanly manner. Members of the Jockey club propose to give a grand dinner to Sedgwick to also to indicate the hospitality of the club and show their respect for him.

THE INTERNATIONAL BOAT RACES.

The Contest Narrows Down to Beach and Teemer—Matterson Collapses

LONDON, Aug. 31.—The last of the preliminary races in the international sculling sweepstakes were rowed to-day. There were two heats, the first between William Beach of Australia and George Bubear of England and the other between John Teemer of the United States and Neil Matterson of Australia. Beach and Teemer were winners.

The weather was brilliant, but the water was somewhat lumpy. Beach led Bubear throughout the heat and won as he pleased by a clear ... lengths. A foul occurred during the race, which both men claimed. Betting was six to one on Beach. His time was 18 minutes and 38 seconds.

Teemer was almost as big a favorite for the second heat as Beach was for the first, five to one being offered on him. The men got off together and remained on a level during the first 200 yards. Matterson then began to forge ahead and soon led by a length. When he crossed over and fouled Teemer, Teemer ... [illegible] ... Matterson's boat, thus winning the race on a foul. Teemer afterwards got clear of Matterson, who stopped ... [illegible] ... Barnes bridge. Teemer continued ... [illegible] ... finishing alone.

The people on board steamers following the race were ... absorbed in watching the foul that ... [illegible] ... towards when Matterson ... [illegible] ... scrambled ... [illegible] ... behind ... [illegible] ... fusion for ... [illegible]

Matterson ... [illegible] ... exertions ... [illegible] ... Wallace Ross ... Beach declares he would ... [illegible] ... race ... [illegible] ... between Beach and Teemer ... [illegible]

ENGLAND.

... [illegible] ... HOME ...

LONDON, Aug. 31.—*Vanity Fair* comes to the ... [illegible] ... society and sporting weekly with these suggestions: Lord Acton, who by the right of his wife plays the part of host to Gladstone in his visit to Bavaria, is an intimate friend and disciple of Dr. Dollinger, and was during the Vatican council his active agent in opposing union with Monsignor Dupanloup, bishop of Orleans, the definition of the doctrine of papal infallibility. Unlike the bishop of Orleans, Dr. Dollinger refused to accept the Vatican decree, and still is in rebellion against Rome. Lord Acton was only restrained from following the example of his ancient master by the kindly influence and moderate counsel of Cardinal Newman. The late premier's pamphlet on Vaticanism is undoubtedly the main point of union between Gladstone and Dr. Dollinger, and I should not at any day be surprised to learn that Gladstone had become an Old Catholic.

THE HOME RULERS AGGRESSIVE.

LONDON, Aug. 31.—At a meeting to-day of forty advanced Gladstonian members of parliament, Alfred Illingsworth presiding, it was unanimously resolved to favor a forward and aggressive policy. It was also determined to notify Sir Wm. Vernon Harcourt and John Morley that the meeting desired that the home rule struggle commenced at the recent elections should be strenuously maintained.

COREA.

CHINA SENDING TROOPS.

YOKOHAMA, Aug. 31.—Advices from Corea say that owing to rumors that Russia intended to establish a protectorate in Corea, the Chinese minister there telegraphed to the Pekin government asking that troops be sent to the peninsula, and that, in compliance with the request, the Chinese government dispatched nine men of war with troops on board to Corea, and they are now anchored before Chemulpo. The dispatches further say that large numbers of Chinese soldiers had entered Seoul in disguise as merchants. Great excitement prevailed in that town. Chinese mobs were parading the streets and conflicts were frequent.

CANADA.

SIR CHARLES DILKE'S BAGGAGE SEIZED.

TORONTO, Aug. 31.—A Winnipeg dispatch says that the baggage of Sir Charles Dilke and Lord Kingston, who recently passed through Winnipeg on their way to the Pacific coast, was seized by the Northwestern police on entering the territories for containing liquors. Sir Charles is traveling under the name of Tetlow.

IRELAND.

AN AGRARIAN MURDER.

TRALEE, Aug. 31.—A farmer named Flasher was found dead with a bullet through his heart in a field near his home near North Kerry. It is supposed he was murdered because of agrarian troubles.

ITALY.

THE CHOLERA PLAGUE.

ROME, Aug. 31.—Reports from Molfetta, San Marco, Rotondo, Pologna and Ravenna show eighty four new cases of cholera and thirty deaths.

WASHINGTON NEWS ITEMS.

APPLICATION FOR AN INJUNCTION.

WASHINGTON, Aug. 31.—A bill in equity has been filed in the district supreme court by C. G. Hartman for Henry C. Strong of Chicago, against Albert B. Vance, acting commissioner of patents, and Elisha Gray, for an injunction to restrain the issuing of a patent to the latter. Complainant states that he is inventor of a railway electric telegraph and telephone and made application for a patent May 18, 18.., that this application had been kept alive by amendment to the claim, etc. That Gray subsequently filed application for a patent for ... telegraph, which he alleges was by trickery and deceit stolen from him and is both a ... reproduction in principle and design of ... [illegible] ... invention. He charges on information and belief that ... [illegible] ... Gray is about to ... [illegible] ... and a patent to Gray is ... [illegible] ... fraud and collusion with the ... [illegible] ... and if so issued will greatly ... [illegible] ... delay him and necessitate long and ... litigation on his part. He further alleges that he is entitled to have official action taken on ... [illegible] ... asks an injunction and ... order ... [illegible] ... next Monday in September ... hearing.

INSTRUCTIONS TO INDIAN AGENTS.

WASHINGTON, Aug. 31.—Acting Commissioner ... [illegible] ... of Indian affairs has issued the following ... instructions to agents in various reservations where under existing laws and treaty ... [illegible] ... The interests of the ... [illegible] ... of Indians ... [illegible] ... be pressed with the utmost vigor. The Indians ... awakened to the importance of individual ownership in the ... and agents must foster and encourage this ... by all means in their power. The Indian ... [illegible] ... to his land ... [illegible] ... declare that the land ... [illegible] ... will not be taken from him. The Indian must be impressed with the fact that if they ... to make their ... [illegible] ... reserve ... they must take ... [illegible] ... title to them forever. ... [illegible] ... to city that many tribes are now ... [illegible] ... allotments and patents ... they were formerly tenacious of holding all lands in common.

COMMISSIONER JOHNSTON RETURNS.

WASHINGTON, Aug. 31.—Joseph E. Johnston, commissioner of railroads, returned to this city this evening from a tour of inspection of subsidized railroads. He looks remarkably well and said to an associated press reporter that there was nothing the matter with him except fatigue from his long journey. He declined to say anything regarding his inspection of railroads before making his report to the interior department.

A NEW MINISTER TO MEXICO.

SAN FRANCISCO, Aug. 31.—Special to the *Examiner* from Washington: Judge Manning of Louisiana was to-day appointed minister to Mexico, succeeding Gen. Jackson. Judge Manning has been on the supreme bench of his state for six years. He is not a politician, but an intimate friend of Secretary Bayard.

A DENIAL FROM SEDGWICK.

WASHINGTON, Aug. 31.—Secretary of State Bayard received this afternoon a telegram from Mr. Sedgwick stating that stories circulated about him were ridiculously untrue and that proof to that effect would be produced whenever he was called upon by the secretary of state therefor.

THE NEW PUBLIC PRINTER.

WASHINGTON, Aug. 31.—The commission of Thomas E. Benedict as public printer has been received at the White house bearing the president's signature of date of the 20th of August. It is understood that the new printer will relieve Mr. Rounds on the 1st of September.

THE FIRE RECORD.

FIERCE BLAZE IN VERMONT.

SOUTH ROYALTON, Vt., Aug. 31.—Nearly the entire business portion of this village and a number of dwellings were destroyed last night. At one time it seemed as if the whole village was doomed, but after a fierce fight with the flames with the assistance which the villagers received from the neighboring towns the fire was got under control shortly after 2 o'clock this morning. Fourteen stores and nine residences were burned. The loss is $160,000.

Portland Mechanics' Fair.
October 7th to 23d. For application for space or any information, address
A. S. WHITING, superintendent, 27 Stark st.

The Oregonian.

PORTLAND, WEDNESDAY, SEPT 1, 1886.

WHAT MIGHT HAVE BEEN.

Twenty-four years ago to-day Gen. Isaac I. Stevens fell in battle at Chantilly, Va., repulsing the attack of Stonewall Jackson on the communications of Pope's army retreating from the bloody field of second Bull Run, fought August 30. Stevens at the time of his death was but 45 years of age. He was born at Andover, Mass., was graduated at the head of his class at West Point in 1839, was brevetted captain and major for gallantry in the Mexican war, where he was severely wounded. He resigned from the army in 1853, and was appointed by President Pierce governor of Washington territory, and at the same time placed in charge of the survey of the northern route for the Pacific railroad. During his term of office as governor he was distinguished for his vigor and energy in the conduct of the Indian war indeed it is said he offered and paid a reward for Indian heads with as much indifference as Turkish pashas did for those of rebel Circassians. He was killed in conflict with the chief Indian race of the territory, Edward Lander, the second in command under martial law, and Major Haller arrested Judge Lander in the course of it, but his action was disapproved by the authorities at Washington. He subsequently represented Washington territory as delegate in Congress for two terms. He was a member of the democratic national convention that met at Charleston in 1860, supported the nomination of Breckenridge, and was chairman of the Breckenridge executive committee at Washington but when the secession of the Southern states was imminent he strongly advised President Buchanan to dismiss Secretaries Floyd and Thompson. Being on the Pacific coast when he heard of the fall of Sumter he hastened to Washington, was appointed colonel of the Seventy-ninth New York, and September 28, last was appointed brigadier general. He was so distinguished for gallantry and ability during Pope's campaign that, had he survived it, President Lincoln intended to appoint him commander of the army of the Potomac.

Stevens was distinguished for the very qualities that McClellan lacked. The equal of McClellan as an engineer and military student, he was a man of remarkable energy, vigor, courage and pugnacity, bold, independent, ready, even anxious to assume and discharge responsibility. He died the same day that Phil Kearney fell, rallying his troops and saving a defeated army from Jackson, who had been sent by Lee to smash Pope's communications with Washington.

The imagination naturally inquires why would have been the result if this Stevens, this happy blending of military scholar and strategist, with the talents of a skillful tactician and daring fighter had led our army at Antietam, instead of McClellan, the Athelstane, the unready of the great war for the Union? Stevens was a type of ultra bilious energy and courage, and had he been at the head of the army of the Potomac for the year that began with Antietam it is quite likely that Grant, Sherman and Sheridan would have missed many brilliant laurels that they finally cropped. Sherman thought the death of C. F. Smith gave "us younger fellows all our brilliant opportunities," and if this could be predicated of Smith it certainly could of Stevens, who had all the executive ability and energy of Smith, joined to a military scholarship and engineer's eye that Smith did not possess. Byron wrote of Napoleon that "a single step into the right had made this man this Washington of worlds betrayed," and another year of life might have made Stevens the conquering hero of the war, the victorious leader of the army of the Potomac the splendid cross of bulldog and greyhound that hunted Lee to death. If Stevens had lived probably he would have justified Lincoln's confidence, and been elected president in 1868. The imagination again inquires what would the old time Breckinridge democrat have done with reconstruction? Would the war have converted him as it did Stanton, another Breckinridge democrat, into a radical republican, or would he have run back, as Hancock did, after the war to the Bourbonism of Seymour, Hendricks and Tilden? Stevens was but 45 when he fell, he had the willfulness, the capacity and courage, the energy, the pugnacity, the aggressive force of character and the superior military scholarship of Sherman, and there is no reason for doubting that had Lincoln been able to fulfill his purpose of placing Stevens at the head of the army of the Potomac he would have found the man for that awful hour of uncertainty when it looked as if the Confederates might stable their horses in the capitol, even as the British did in the old South church of Boston.

STOCK DEPARTMENT OF THE STATE FAIR.

In its general character the state fair at Salem must always be a farmers' fair. Its traditions and its location in the middle of the Willamette valley, with the consideration of maintaining an attraction distinct from that of the Mechanics' fair at Portland, make it necessary that its interests should chiefly be agricultural. It should organize those things which especially interest farmers and the thoroughly accomplished, incidental and social interests will provide themselves. The first attraction after horse racing (if indeed it comes next before racing) is that of the stock, so it and no pains should be spared to have these always well filled. This can be brought about only by fair and liberal management. There should be easy concessions for receipt and sale of stock and premiums worth trying for should be offered. Furthermore the fair should be made a stock market, where those who are stock to sell should come and those who want to buy should go. Instead of the present haphazard system, we proceed usually without any system at all, awarding prizes hap-hazard upon the opinions of people who know little or nothing about the real merits of fine stock and who judge only by superficial appearances. The real value of a judgment on the merits of live stock must depend on the standards of excellence which prevail and are regarded as established. All else is fancy and whim and utterly worthless. We hope to see the management of our state fair take up this feature and give it the attention due to an important agricultural interest.

From what can be learned of the purposes of the committee of fifteen, it is their determination to go on with the project of bringing in water from Bull Run, substantially on the plan heretofore outlined. Upon all the legal questions heretofore raised for obstruction of their project the committee have taken legal advice and it is stated that the result satisfies them that no obstacle of a legal nature can be successfully interposed. Hence it is the purpose to push on the work as fast as the arrangements can be made. If this is correct, as reported, then it becomes the interest of the great body of the citizens of Portland that the work be pushed with all energy and carried to a conclusion as soon as consistent with proper economy and proper economy in such affairs consists largely in prompt and vigorous action.

Forty years ago the New York and Erie railroad undertook to make its terminus on the lake at a point chosen, not by the country for its business, but by the managers of the company for their own profit. A good harbor, equal in all points to that of Buffalo, was found, a city laid out and called Dunkirk, and the railroad built to it. The scheme was a big one and was "boomed" with all the power of the company, then the biggest organization in the country. But the people of Buffalo stuck to business at the old stand, and all the efforts of the railroad failed to make a city at Dunkirk. It was soon found necessary to extend the road to Buffalo in order to get business, and that city continued to gain and prosper. To this day Dunkirk is a small town and Buffalo continues the great western depot of New York.

In railway earnings, whether up or down, there is a good barometer of the state of business. Low railway earnings indicate general depression, improvement in railway earnings is suggestive of better general business. The New York *Financial and Commercial Chronicle* tabulates the returns of the various roads of the United States, which show a gain for June of some $2 000,000, and for July of $2,235,250, over the earnings of the same months of last year. Only ten out of sixty-eight roads show smaller earnings than those of last year, while on most of the important systems the gains are marked. Every month since January shows some increase over last year. The improvement is especially noticeable on the Northwestern systems.

Chief Justice Waite has not said anything at San Francisco, or anywhere else, savoring in any sort of sympathy either in purpose or method with the maltreatment of Chinese in Alaska or elsewhere, and the Tacoma *Ledger* lies basely when it intimates that he has. While in Portland, after his return from Alaska, the chief justice called at THE OREGONIAN office for the express purpose of saying, and of having it reported, that the eviction of Chinese from Alaska was a gross and cruel outrage, a violation of every sentiment of humanity and of international comity and good faith.

The Walla Walla board of trade passed resolutions at their last meeting very complimentary to Major Wm. A. Jones for the interest he has taken in the improvements on the Columbia river since appointed to this district, it was also resolved that Major Jones be invited to attend the Columbia waterway convention this fall and lay before that body such information as will aid in securing open and free navigation of the Columbia river. This action is praiseworthy, as Major Jones's advice and counsel cannot fail to bring about a more intelligent consideration of the difficulties to be overcome.

We have had some awful stories this year about sea serpents, snakes, surgical operations and almost everything under the sun, but it remains for a Sitka paper, the *Alaskan*, to beat the record. It says "Our Alaskan town of Juneau is entitled to credit for three wonders—a man who has earned 6921 days' wages in 400 days, a mule who committed suicide when life became a burden, and a grand juryman who aided in preserving himself for violation of law."

The editor of the Milwaukee *Sunday Telegraph* puts a truth in this form "To Brother Anarchists of all European countries—Don't come to America. The d—d Yankees have a buzz-saw. We have monkeyed with it. August Spies, Louis Lingg, Michael Schwab, Adolph Fischer, Samuel Fielden, A. R. Parsons, Louis Engel."

The suggestion presented in the communication signed "Tax," that bids be received by the common council for lighting the city, is timely. Proposals for such bids might include both electric and gas lighting and then the city authorities could choose and decide.

Alexander of Bulgaria is again to set up in business at the old stand. We are sorry of this, since we have in Portland a number of ex rulers out of a job, and we had hoped some one of them might get Meek's old place.

A new metal has been discovered that is hard enough to cut steel. It is called alumite—perhaps because it is —— harder than any other metal yet found.

SALEM NOTES.

Salem, Aug. 31.

The funeral of Mrs. W. H. Ladd took place from the residence of Senator Ladd at 10:30 A. M. today. Rev. McCoy officiated. A procession of carriages followed the remains to their last resting place in the Old Fellows' cemetery.

Company I, O. N. G., met this evening for the first time in their new armory on State street, where they have very fine quarters.

Mr. A. F. Strong, engineer of the Oregonian mine, Ashland, this county, has received the gold set of Delta Carpathian university.

Eugene Engine Co. No. 1 of Eugene City have obtained a rattling good drill room to practice in them in the contests at the coming state firemen's tournament in this city.

The secretary of the local committees of arrangements has sent invitations through their respective chief engineers, to the fire departments of East Portland and Corvallis to attend the firemen's tournament in this city.

Send two cent stamp for "A Phenomenal Record" to C. I. Hood & Co., Lowell, Mass.

Don't use poisonous lead Face Powders. Imperial's medicated Invisible is guaranteed absolutely harmless, preserves the complexion. S. G. Saldmore & Co., 151 First street, agents.

TO NEW TRADE.

A. L. Weiler & Co., 20 North Front street, carry constantly a complete stock of all Havana as well as mixed Havana cigars, manufactured in their factory at San Francisco exclusively by the International white labor union.

Owing to their splendid facilities, representing, as they do, the largest factory on this coast, you will find their goods superior in quality and workmanship, and at lower prices than those of any other competing house. A trial order is respectfully solicited.

WHY SMOKE CABBAGE LEAVES?

Buy genuine Tansill's Punch 5c cigars from Plummer & Byerly, druggists, First and Main.

Young Ladies' Journal and Popular Monthly for September at Fd Dekum's, 49 Washington street.

Delicious ice cream and water ices of all flavors at Alisky's restaurant.

BUSINESS ITEMS.

Boats all day at special rates. Wankeegan Boat House.

WOVEN WIRE spring beds. George M. Parker, 131 Fifth street. Trade supplied.

New Home Sewing Machine Co., 45 Morrison st., near Second. The Blue Front.

GARRISON'S Sewing Machine Store, 167 Third st., Portland, Or. for the latest and best.

Pond's Extract, the most popular curative agent known for Pains, Aches and Injuries; let those who have never used it inquire concerning its virtues.

THE VIENNA,
Washington st., leads all for Lunches and Ice Cream.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhœa. Price 25 cts. a bottle.

FIRES IN AUGUST.

During the month which closed yesterday, the record on file in the office of the Portland board of fire commissioners show the following fires and alarms, losses sustained, amounts of insurance and also the sum paid in each instance.

Third—Still alarm at 10:05 A. M., northwest corner of Third and Taylor streets, two-story brick building occupied as a Chinese store, cause of fire, a defective flue, loss, nominal.

Tenth—Alarm from 1 N 1, at 12:10 A. M., from C street, between Third and Fourth, one story frame building, occupied by Mrs. Sullivan as a dwelling, owned by a Mr. Hampton, loss on building $100, on contents, $200, insurance on contents, $500, amount of insurance paid, $—.

Tenth—Still alarm at 7 P. M. from Second and Yamhill streets, three-story brick building occupied as a printing office by Geo. H. Hine, caught from a small boiler stack burning out, loss nominal.

Eleventh—From box 14 at 4:50 A. M., Front, between C and D, two-story brick building occupied by Mark A. Jorgensen as a wholesale liquor store, caught from boiler, loss on building $50, on contents $450, insurance on building $500, insured on contents, $12,500, insurance paid on building $40, insurance paid on contents, $—.

Twelfth—From box No. 13 at 1:45 P. M., a false alarm.

Thirteenth—From box No. 6 at 2:15 P. M., at Jefferson street, between Front and Water, a factory frame building owned by S. Wilcox, caught from sparks on the roof, loss nominal.

Thirteenth—From box No. 23 at 5 P. M., corner of Eighth and C streets, two-story frame building owned and occupied by Mosier's rope and cordage works, loss on building, $1691, loss on contents, $17,315, insurance on building, $1000, insurance on contents, $11,800 paid on building, $1000, paid on contents, $12,100.

Same date and time caught from rope works, one and one-half-story wooden dwelling occupied by John Wannamaker, loss on building, $200.

Same date and time caught from cordage factory two-story frame building occupied by N. Bobiman, loss on building, $349 67, loss on contents $210 15, insurance on building, $1000, insurance on contents, $300, insurance paid on building, $349 67, paid on contents, $210 15.

Twenty-second—From box No. 14 at 8:05 P. M., Stark street, between First and Second, caught from storage shed, total loss, divided between W. S. Ladd, Mckercher & Thompson, Portland water company, James McPheelim and B. J. Holmes, will not exceed $1000, premises fully insured, carrying policies aggregating $1,500.

Twenty-sixth—From box No. 23 at 8 P. M., Stark and Seventh streets, two-story frame dwelling, cause, chimney burning out, loss, nominal.

Considering the number of fires and alarms during the present month, the loss has been comparatively light. In round numbers the total loss for August is $23,300, all of which is covered by insurance.

Children will sleep well and have good digestion if you give them PARKER'S TONIC.

Elmo rooms 13 and 15 for rent. Inquire on premises.

LOCAL AND GENERAL.

DIVORCE MATTERS—Lena Miller has commenced an action in the state circuit court for divorce from Emanuel Miller and to be awarded the care and custody of her children ... Ola, Chester Loyd and Ralph ... years and Maud aged 18 months. They were married during the month of June 18.. Brownsborough, Oregon. Plaintiff alleges that defendant has treated her in a cruel manner and has been guilty of adultery. In the same court Sarah Labowitch asks that the bonds of matrimony existing between hers lf and Morris Labowitch be dissolved. They were wedded September ... in ... Russia and have four children. The ground of divorce is cruel treatment and failure to provide. Referee James S. Negley Jr has filed his report in the case of ... Fuller vs. James Fuller. He finds that they were married in Oregon City in 18.. and that the issue of their marriage is a daughter named Lillian; that the defendant willfully deserted plaintiff, who is entitled to a divorce and the custody of her child.

THE EXHIBIT CAR. The state board of immigration has a letter from D. S. K. Buick ... of the exhibit car in which he says that the contents shown not only along the route but at the Minneapolis exposition and the Minnesota state fair have created a perfect furore among the farmers and others who have visited the car. Since the arrival of the car at Minneapolis thousands of people have visited it. Indeed it has been so constantly thronged that a passage through it has at all times been difficult. Mr. Buick writes that the railway officials, especially those of the Northern Pacific and the Chicago, Milwaukee & St. Paul have been untiring in their efforts to abet his work. He is also under great obligations to the exposition and state fair officials for efficient aid. He says the exhibit was in ... shape after the long journey and has been the chief attraction wherever exhibited. September 4th the car will be at the state fair in Des Moines, Iowa, and on the ... at Madison, Wisconsin.

ALLEGED SMUGGLERS ARRESTED—The two Chinamen held by the police Monday night for opium smuggling were arrested yesterday on a warrant from the U. S. court. They will have a hearing to-day. They will be tried under section 2865 of the U. S. revised statutes, which reads: "If any person shall knowingly and willfully with intent to defraud the revenue of the United States smuggle or clandestinely introduce into the United States any goods, wares or merchandise subject to duty by law and which should have been invoiced without paying or accounting for the duty, or shall make out or pass or attempt to pass through the custom house any false, forged or fraudulent invoice every such person, his, her or their aiders and abettors shall be deemed guilty of a misdemeanor and on conviction thereof shall be fined in any sum not exceeding $5000 or imprisoned for any term of time not exceeding two years or both at the discretion of the court."

JACK POWERS PARDONED—Yesterday Gov. Moody pardoned Jack Powers who was serving a life sentence in state prison for the murder of Benjamin Cornelius. The deed is fresh in the minds of all who knew either party to it. It was committed July 4, 1881, two days after Garfield was shot, near the corner of Front and Morrison streets. Cornelius lived till the next day. Powers was tried, convicted of murder in the first degree and sentenced to death. The case was appealed to the supreme court, which affirmed the judgment of the state circuit court. Gov. Thayer commuted the sentence to imprisonment for life. Powers was in the city last night looking somewhat older than he did five years ago. He is in fair health. He is stopping at the Quimby, where quite a number of friends called to see him.

BEATEN WITH A WASH BOWL.—War has again broken out in Chinatown. Monday Ah Gin, beat a fellow countryman over the head with an iron bar but has not yet been arrested for it, as the police haven't been able to find him. Last night a Celestial appeared at the police station bringing with him a head so covered with black patches that it looked as if he had rented it out as a sign for a phrenologist and that every black patch was meant to denote a bump. He explained however that the marks on his head were not natural nor put there with his consent but were made with a wash bowl in the hands of Ah Fong. He asked that the police judge summon Tong to appear and show cause for beating him with a wash bowl, and the warrant necessary to secure Fong's appearance was issued.

PRONOUNCED A FAILURE. Remarks an Albany exchange: The people living upon the upper waters of the Willamette river were well satisfied with the appropriation of $10 000 made by the legislature for the building of a fish ladder at the Oregon City falls. That the ladder as built was a fraud on the people there can be no doubt. When the shad placed in the river at this city and which can be seen every day by the thousand from Monteith's wharf leave for the ocean they will never return because they will be unable to ascend the falls. Neither will we be able to see the lordly chinook wending his way along our city front, because the ladder is a failure and that magnificent fish will be unable to ascend the rapids until a new ladder is built.

FAVORITES COMING.—The Grismer Davies company have adopted a new style of advertising, namely a mammoth stereopticon. A big canvass has been stretched on the side of Green's block and the light is thrown on from the Gilman. Among other things, scenes from "The Hoop of Gold" and "The Field of Honor" are shown, and the performance attracts a crowd every evening from 45 to 8 45. The Grismers have been doing exceedingly well this season. During the G. A. R. encampment, their audiences filled the Grand opera house, the largest theater in the city, every night for four weeks. Their tour this winter will include Kansas City and Chicago.

IMPORTANT REMOVAL.—Buckingham & Hecht and Hecht Bros. & Co., the well known manufacturers and importers of boots and shoes, have removed to Kamm's handsome brick building, 49 and 51 Front street, where the increased room (the new store having four floors, besides a cemented basement,) provides ample facilities for the handling of their business. Buckingham & Hecht are the manufacturers of the well known brand of Hercules boots. They have houses in San Francisco and in Boston, the latter doing a large wool commission business.

TOO SCARED TO TALK.—One night last week at Ellensburg, W. T., two masked men entered the store of L. Blumauer & Co. just as the clerk was closing up, and, presenting revolvers to his head, demanded the spare cash of the concern. The clerk screamed murder and attracted the attention of watchmen on the Northern Pacific, who rushed to the store, but not before the thieves made their escape. So scared was the clerk when assistance arrived that he could not tell why he had called for help until after it was too late to give pursuit.

THE MORRISON STREET BRIDGE.—Preparations for the building of the Morrison street bridge are rapidly being pushed forward. A large barge is being fitted up to be used in connection with an engine, a huge hawser and a pair of blocks for pulling up the old piling. An experienced diver ... engaged, and in a few days the work of removing the old piers and putting in new will be under headway. The iron work for the bridge is being made in San Francisco and is nearly completed.

NOT MOUNT TABOR PROPERTY. The forty acre tract mentioned in the suit of Balfour, Guthrie & Co. against Jonathan Bourne Jr. is situate near the Mountain View park, on the Cornell road, not on Mount Tabor as stated. Owners of the Mount Tabor tract, in which Bourne formerly had an interest, complain that publication of the error may have the effect of casting a shadow upon the title of the property, which is not in any way involved in the suit mentioned.

WATER RIGHTS TRANSFERRED.—Yesterday in the office of the county clerk, A. G. Cunningham transferred 3.0 acres in Clackamas county to ..., together with all the rights, privileges, tenements and riparian rights in and to the waters known as the North Fork of the Sandy or Bull Run river, to the Bull Run Water & Power company. The consideration was ... 000 shares of stock of the Bull Run Water & Power company, of the par value of $100 per share.

BOAT RACE AT ASTORIA.—Last Sunday there was a sail-boat race between Whitehall boats at Astoria for a silver cup. The contestants were the Three Jacks, sailed by Joe Baker; the Harry Bingham, by John Nelson; the Pride of the Columbia, by James Hess, and Carole, by Denny Curran. They passed the home stake in the order named. It was a close race throughout, the Three Jacks beating the last boat only three minutes and ten seconds.

ARRESTS LAST MONTH.—The police made 1.. arrests during August as follows: Drunkenness 8., criminal assault 2, disorderly conduct 4, trespass 8, abusive language 1, threatening to kill 2, gathering swill at unusual hours ., insane 3, vagrancy 7, larceny 15, fighting 12, begging 2, assault and battery 9, selling liquor without license 2, roaming about after midnight 2, contempt of court 1, held as witness 1, distributing handbills 1, peddling without license 2, lewd cohabitation 2.

CHANNEL THROUGH ST HELENS BAR.—The steamship Umatilla has returned from St. Helens, where with a trifle over fifty hours active work a channel 1500 feet long, 150 feet wide and six feet deep was cut through the bar, thus giving 2. feet at zero of the gauge. We will not hear of ships getting aground any more this season.

BOARD OF EQUALIZATION.—Yesterday the board of equalization cited the following to appear before the board to-day: Joseph Bergman, M. Rosenblatt, J. I. Hawkins, J. F. Caples, Geo. Pope & Co., Koshland Bros., Wm. Beck & Son, Thompson, DeHart & Co., Corbett, Failing & Co., Fleischner, Meyer & Co. and Snell, Heitshu & Co.

POLICE COURT.—Edward Knox, assault and battery on James Lature, bail of $10 forfeited. George Brown, the companion of Florence Helen Gregory, accused of the larceny of $240 from a man named Donnelly, waived examination to appear before the grand jury. Nothing has yet been done in Miss Gregory's case.

Angostura Bitters do not only distinguish themselves by their flavor and aromatic odor above all others generally used, but they are also a sure preventive for all diseases originating from the digestive organs. Beware of counterfeits. Ask your grocer or druggist for the genuine article, manufactured by Dr. J. G. B. Siegert & Sons.

Preliminary notice of auction sale of a collection of fine oil paintings. We will offer for sale by public auction a choice collection of fine oil paintings, direct from Europe, comprising subjects by the best masters. Due notice will be given of the place and time of sale. Our catalogues will be furnished. Gilman & Co., auctioneers.

TO RENT.—House of nine rooms, with all modern improvements, within half block of street cars. Apply at 194 Salmon street.

Ghirardelli's Chocolate is the most popular brand on the market, because the best. 14

THE WATER COMMITTEE.

Plans and Specifications Prepared by the Sub Committee Adopted

Some of the Main Features of the Work—Time for Completion, Etc.—No Chinese to be Employed.

Yesterday afternoon the water commissioners held a special meeting, Chairman Failing presiding, and Messrs. Corbett, Dekum, Fleischner, Gates, Knapp, Ladd, Lewis, Reed, Richardson, J. C. Smith and Therkelsen present, and clerk Sehuy... in attendance.

The minutes of the last meeting were read and approved; also the minutes of the last meeting of the sub committee held August 21. At this meeting the sub committee carefully examined the specifications which were then changed in some minor particulars, rewritten and now submitted to the general committee with a recommendation that they be adopted.

The specifications were then read and adopted and it was then ordered that 50 copies be printed in pamphlet form.

The ... suggested that the engineer be instructed to make a plot of the ground which the commission will need to occupy for a reservoir in the city park and submit the same to the city council for its approval. The council are making roads in the park and otherwise beautifying it, and the reservoir could be made one of the features of the park.

A motion concurring this suggestion with the addition that the engineer should prepare the plat at the earliest possible day was made and carried.

The commission adjourned till 1 M. to-day. At noon to-day Engineer Smith will turn in bids for the headworks. These will be submitted to the sub committee and then the general committee will take final action on the bids.

SUMMARY OF THE SPECIFICATIONS.

THE SUPPLY.

Water will be diverted from Bull Run in Clackamas county at a point lying in section 20 ... It ... and will be conducted thence to a reservoir within the city of Portland by a conduit thirty ... miles in length of which 1200 feet will be head works, 2100 feet submerged pipe under the Willamette river and the remainder wrought iron pipe.

WORKS CLASSIFIED.

The work will be classified under the heads of headworks, clearing, and roads, iron pipe, manufacturing and laying of pipe, bridges, submerged pipe and reservoir.

HEADWORKS.

The headworks which are designed for the diversion of the water into the wrought iron pipe at a point at which high water will consist of a road and a conduit. The road will be from ... and a half to two miles long and will cross Bull Run twice by bridges. The work on the road will be classed under the heads of clearing, trestling, held ... and excavation. Each of the bridges will be ... feet long.

The conduit is designed for the diversion of the water from the stream to a point above high water where it can be taken into the wrought iron pipe. It will be cut into the boulders and rock along the bank of the stream to a grade three feet below the level of low water and the bottom of the trench to a width of four feet and a depth of three feet will be a water tight channel laid and lined where necessary with concrete or rubble masonry.

Proposals will be made separately for the road and conduit on the following estimated basis of quantities:

For the road—Clearing ... miles acres; trestling 1.0 lineal feet; bridges (.) 250 feet; excavation, rock 400 cubic yards; loose rock 600 yards; earth 2000 yards.

For the conduit: Rock .000 cubic yards; masonry 200 cubic yards.

CLEARING AND ROADS.

The clearing is to be thirty three feet wide. Roads for the transportation of pipe and the material will be constructed along such portions of the line as the engineers shall designate. The road bed is to be eight feet wide, well drained and surfaced, sufficiently straight for wagons coupled to carry pipes twenty eight feet long and with turnouts at intervals of not more than 800 feet. There will be eight miles of road and sixty acres of clearing.

WROUGHT IRON PIPE.

The pipe will be of alternate large and small parallel courses, the smaller fitting at each end into the larger, double-riveted on straight and single-riveted on round seams, except on soft ground bridges or trestles where leaded joints will be substituted by direction of the engineer. The pipe will be of two diameters, 27 and 22½ inches, measured on the inside of the smaller course. Estimated lengths are as follows: ... inch pipe ... feet No. 11, Birmingham gauge; 2½ inch pipe 4000 feet No. 7, Birmingham gauge; 2. inch pipe ... feet No. 12, Birmingham gauge; 22½ inch pipe 15 850 feet No. 11, Birmingham gauge; total length 1. 560 feet.

The iron to be delivered in East Portland to the order of the water committee to be of uniform thickness, close grained, tough and pliable, to stand cold scarfing at the edges without splitting, to be entirely free from splits, flaws, blisters, rust or other defects, to have a tensile strength of 50,000 pounds and an elastic limit of 25,000 pounds to the square inch and to vary not more than 3 per cent from the following thicknesses and weights per square foot, corresponding with Birmingham gauge:

No. 12, iron, 109-1000 in. thick, weight per square foot 4 405 pounds.

No. 11, iron, 120-1000 in. thick, weight per square foot 4 885 pounds.

No. . iron 180-1000 in. thick, weight per square foot . 0 pounds.

Proposals will be made by the pound on an estimated weight of 5,..0 000.

MANUFACTURE AND LAYING OF PIPE.

This work will include the receipt and storage of iron when delivered in East Portland, the furnishing of rivets, manholes, air valves, blow-offs, etc., the excavation and refilling of the pipe trench, the transportation of the pipe to the trench, the laying and riveting in the trench and two pipe chambers.

These specifications cover seven pages, and are interesting only to specialists in iron work. The principal provisions relate to the manner of riveting the covering of the pipe, and its strength. After making up the pipe into lengths of five courses, and before coating them with asphalt and coal tar, each length will be tested by, and at the expense of the contractor, by subjecting it to the following pressure in pounds per square inch:

The 22½ inch pipe No. 12 iron 160 pounds
The 22½ inch pipe No. 11 iron, 170 pounds
The 2. inch pipe No. 11 iron 140 pounds
The 27 inch pipe No. 7 iron 210 pounds

After the pipes have been thus tested they will be subjected to a bath of proper proportions of asphaltum and coal tar of the best quality, the coat ing to be perfectly smooth, tough and homogeneous, to adhere tightly to the iron, not to become brittle when cold or to run or drip when exposed to the sun, and to have a uniform thickness on the inside and outside of the pipe of not less than one sixteenth of an inch.

The contract will not be considered as completed until three months after water has been turned on to the ... which time the work shall be maintained and all repairs made by the contractor.

BRIDGES.

There will be three iron bridges, two across Bull Run and one across the Sandy river, with spans of ... and 100 feet respectively. Separate proposals will be received for each bridge.

SUBMERGED PIPE.

This pipe is to be laid under and across the Willamette river from V street in East Portland to Jefferson street in Portland or in such other location as may hereafter be designated by the committee. The width is 2100 feet and the greatest depth .. feet. The contract will be for all pipes, joints, material and labor required for laying the pipe in place and maintaining it in good repair until six months after the water shall have been turned in from Bull Run. The pipe is to be of best quality of iron one inch thick, cast by approved methods, in twelve foot lengths with flexible joints and thoroughly coated with an asphalt and coal pitch varnish. A trench will be dredged in the bed of the river of such depth that the bottom of the pipe when laid shall not be less than four feet below the surface of the river bed.

THE RESERVOIR.

There will be 18 000 cubic yards of earth excavation, 1 00 yards loose rock and 500 yards of rock, .0 cubic yards of cut stone, 40 cubic yards rubble, 150 000 cubic yards of brick, 1000 cubic yards of concrete and 10 000 square yards asphalt slope lining.

COMPLETION OF THE WORK.

In the headworks the road is to be completed within thirty days after signing the contract and the conduit within sixty days after the completion of the road.

The clearing and road within three months after signing the contract.

One fifth of the iron required for the pipe to be delivered in East Portland within ninety days after contract awarded, remainder in four monthly installments.

The work of manufacture and laying to commence on the delivery of the iron and six miles of pipe must be completed and laid in the trench each month from the time of commencement.

The bridge is to be completed within four months after signing contract.

The work on the submerged pipe to be completed during the low water stage of the Willamette river in 188..

The reservoir to be completed within four months after signing the contract.

Payments are to be made every month, the committee withholding 25 per cent until one month after the completion of the contract.

Every contractor is to give bonds.

Every proposal must be accompanied by a certified check for an amount equal to 5 per cent of the amount of proposal.

NO CHINESE.

No Chinese or Mongolian labor will be allowed in any work enumerated in these specifications, on penalty of forfeiture of the contract.

LIGHT FOR THE CITY.

PORTLAND, Aug. 31.

TO THE EDITOR OF THE OREGONIAN

The proposal of Mr. P. F. Morey, noticed in your columns this morning, to light the streets of Portland as heretofore, except the substitution of Edison electric lights for the present coal-oil lights is absurd. The great cry of the citizens has been for more light.

How would he satisfy that call? By keeping up the present electric arc lights, which, though of nominal 2000 candle power, do not give one-fifth of that illumination, and a lot of electric incandescent lights which, as ordinarily furnished, give from 10 to 16 candle power each, supposing that the term "electricity" would cover its multitude of sins.

Now, there are electric lights and electric lights. What the city needs is electric arc lights of sufficient size that they may be hung high enough over the streets to illuminate at least one block in each direction (not as now, so low that they be found without the aid of a candle), and enough of them to cover with their brightness the built up parts of the city. Such lights have been for months in use in Astoria and Salem and are being sustained in other places. Portland should not be content with the figurative tallow dips of antiquity.

The city council should advertise for bids for lighting the city either under a definite plan or open to the suggestive competition of bidders as to details, and it may perhaps be done in a far better manner than now, or as proposed by Mr. Morey, and for much less money. F. N.

DIVERS'S POOL.

A Remarkable Pool on Hood River—Named for John Divers.

The west fork of Hood river as described to us by a correspondent must be one of the most beautiful and romantic of mountain streams. A flood of rushing crystal water is there poured into the turbid glacier current of the main river which is fed by the moving ice masses of the eastern slope of Mount Hood. The west fork flowing rapidly like the McKenzie and other streams of the Cascade range over the bed of lava basalt and boulders left by volcanic and prehistoric glacial action seems to be supplied by the upper snow or from the melting of glaciers fed under the near ... At ... place it can be forded but with difficulty.

A few rods ... junction with Hood river there is a remarkable pool which anywhere except in our northwest country where there are so many objects of scenic interest would have ... this attracted hundreds of visitors. The walls are nearly circular ... feet high of solid rock in regular or fantastic columnar formation. The river pitches into the basin a distance of about fifteen feet, a narrow fall, the stream thickened for the turn. The pool is about 200 feet wide and all the surroundings impress one with a sense of great depth, with long, boiling eddies and black blue waters except when the central foam slopes from the foot of the fall. The hexagonal basalt formation is remarkable for the parallelism and uniform cleavage in some places vertical for a hundred feet and three sides of each column sharp cut in relief; in other places the whole mass of columns deflects with a swoop as of the primitive volcanic storm when it left the fiery mass to crystallize. One feels as if standing on the huge cavity of a gigantic petrified honeycomb. Where the water ... from this wonderful basin another fall of fifty or seventy feet plunge comes down from the cliff known as Dead Point creek, and above the first fall are ... inferior to the main one in depth and beauty. It is needless to say that the finest of fish ... the ... spots and they have been taken in numbers at the proper season by fairly good anglers, and a species of large trout is found, specimens of which have been vouched for as furnishing a single ... three meals for ... men. The Hood river country with such streams and the near vicinity to the mountain and glaciers is very sure to be more and more frequented as it becomes known to tourists and facilities of local travel and accommodation increase.

NEW SUIT AGAINST BEN HOLLADAY

D. P. Thompson has commenced suit in the state circuit court against Ben Holladay and for cause of action alleges that defendant on the 1st of January 1886 executed to plaintiff a written instrument, a copy of which is as follows:

Wherein by a decree of the circuit court of Multnomah county, department No. 2, it has been adjudged that the defendant in the suit of myself against Joseph Holladay, defendant, pay the costs of said suit and that such costs include the fees of the receiver, and whereas I am desirous of obtaining advances of money from D. P. Thompson from time to time now therefore I hereby agree to and with said Thompson that out of the said costs on account of receiver's fees which I am entitled to receive from the said defendant I will pay to said Thompson the sums so advanced with interest at 10 per cent and will also pay Henry Failing ... received by me from him with like interest and to secure such payment I hereby assign to Thompson all said costs provided however that the sums advanced to me shall be in amount $200 per month and I shall continue at my option not longer than such time as said Thompson shall continue to be receiver in said suit.

BEN HOLLADAY.

Portland, Jan. 1, 1886.

Plaintiff alleges that in pursuance of the under standing and agreement contained in said written instrument he advanced and loaned to defendant $1100 in amounts of $100 on each of the following dates: January 1st, February 5th and 23d, March ...th and 23d, April 7th and 24th, May 8th and 26th ... and ... Plaintiff further alleges that the receiver's fees mentioned in said agreement were finally adjudged by the supreme court upon an appeal of said suit to be paid by Ben Holladay to Joseph Holladay, and thereby the security assigned by Ben Holladay to plaintiff as set forth in said written instrument became worthless and of no value of security whatever; that the said sum is now due, amounting to $1146.50. Wherefore plaintiff prays judgment and for costs.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cans. WM. T. COLEMAN & CO., Agts. San Francisco.

OPENING

—OF THE—

Fall & Winter

SEASONS!

—AT—

Meier & Frank's

Dress Goods

—AND—

Silk Department.

We are able to announce the opening of our Fall and Winter seasons at this early date from the fact that our first arrivals of Foreign Fabrics have come to hand ahead of even our own expectations. Mr. MEIER has been in the European market all Spring and Summer, and we have had the very important advantage of his placing our orders with the French and English manufacturers. Our direct importations are large—larger this season than any previous one—which we found necessary to meet the wants of our greatly increased and constantly increasing trade.

We have now open and on sale

ALL LEADING NEW LINES,

And in addition are showing many

EXCLUSIVE NOVELTIES IN DRESS GOODS,

NOVELTIES IN PLUSHES, VELVETS & SILKS,

Manufactured to our order from design and advanced samples, from which selections have been made by Mr. MEIER. These special lines are in limited quantity only.

Owing to the sharp advance in all Foreign Fabrics, our prices for this season's trade in all lines will be found very tempting offers. From the important fact of our having taken an early advantage of the market, we are able to offer many lines at prices that we cannot at present duplicate or land them for.

The regular steamer for Victoria sailing from San Francisco last week carried freight for the East to go via the Canadian Pacific including 1500 cs salmon for Chicago 60 cs canned fruit for New York and cs canned fruit for Winnipeg.

Reviewing the San Francisco merchandise market the Commercial News says While there is nothing in the markets to attract special attention all lines heretofore reported active continue so far as the selling interest and other lines which have been without movement now show signs of vitality Viewing the situation as a whole the outlook favors a healthy legitimate fall trade as a free from speculative influences, and based upon a sound consumptive demand The detention at Falk and islands of the Sydney Dacres and Lingal, each ship having on board considerable Liverpool salt has been the cause of an effort to advance the market and while this has met with some success the fact that the Dumfriesshire is at hand with upwards of 1000 sacks the spot market was fairly supplied before her arrival and the season is one in which the consumption is small retard the effort to obtain extreme prices Stocks however are firmly held at quotations which are somewhat higher than rates quoted a week ago Pig lead and shot slow since improvement in price while quicksilver is weaker and the quotation has been lowered to per flask Tin plate without change Bloc tin is scarce and in request for the buying interest Advices from the Orient report an advance in nutmegs and prices here are The feature of the week was an auction sale of teas at which over 700 packages were sold at prices very much in buyers favor Salt is in brisk demand for domestic consumption and shipment. Jobbers are amply supplied with raw and there is no sale for grocery grades The market for canned fruits and vegetables is active and firm but without any change in prices The quality of the goods put up this year is excellent and cannot but add to the high reputation already attained by the California packers An arrival from Alaska on Wednesday added 3,315 cases salmon to the spot stock There is little movement in this line all stocks being closely concentrated and firmly held for a further advance The run on the Fraser of late has been very heavy but came so late packers were unprepared for it but whether they resumed operations in time to profit largely by the run or not is still a question Advices from Alaska report a light run of fish there. Coffee stocks in first hands consist of 3215 bags Costa Rica 190 Nicaragua 641 Salvador 9727 Guatemala. In second hands the supply is large The demand is rather light

A Cure of Pneumonia

Mr D H Barnaby of Owego N Y says that his daughter was taken with a violent cold terminated with Pneumonia, and all the best physicians gave the case up and said she could live but a few hours at most. She was in this condition when a friend recommended DR. WM. HALL'S BALSAM FOR THE LUNGS, and advised her to try it. She accepted it as a last resort and was surprised to find that it produced a marked change for the better, and by persevering a permanent cure was effected.

ADDITIONAL TELEGRAPH.

A WATERY DILEMMA

An Iowa Town Partially Flooded by an Uncontrollable Artesian Well.

CEDAR RAPIDS, Iowa, Aug 31—Wm Weir & Sons began boring an artesian well at the intersection of Beech and Washington streets Belle Plaine on a flat about four blocks south of the Burley house The contract called for a well with a three inch casing and a flow guaranteed. They bored a two inch hole and theorized that the flow of water through it would wash it out so they could sink a three-inch casing Thursday they struck water at a depth of 18 feet At this time they had about sixty feet of three inch casing down, and the water rose with strong force twelve feet above the surface in a solid three-inch stream plainly showing the strongest force yet struck Friday morning the flow was under control, but during the forenoon in an attempt to force a three inch tube into the two inch hole it broke loose and wore away sufficient space outside the tubing to allow the water to boil out around the tubing at the surface At sundown Friday a stream of water a foot in diameter was pouring out At 8 30 the city authorities were appealed to to take control and give relief from the impending danger Already many lots and houses were more or less flooded At 9 P M a gang of men were set at work and the mayor and council personally superintended until nearly morning All expedients were tried but the water could not be controlled Saturday morning Eugene Palmer proposed that a fifteen inch tubing could be driven down to the blue clay believed to be about fifty feet down and by thus confining the flow to a common center the entire flow could be stopped and then the one in the tubing controlled The scheme failed It is impossible to estimate the damage The south part of town is flooded and cellars are filled with water The flow continues unabated making two rivers through the lower part of the city In his helplessness the mayor to-day appealed to the hydraulic engineering service of Chicago for relief

CRIMINAL CALENDAR.

A TRAIN ROBBER RESCUED

CHICAGO Aug 31—Five masked men boarded the passenger train at East St. Louis last evening and took Jimmy Carroll the noted bank robber from the deputy sheriff who was taking him to Galesburg for trial he having been concerned in a big bank robbery there some years ago Carroll escaped to Canada shortly after the Galesburg burglary but was arrested and sent to prison for a crime he had previously committed in that country Until then he had always escaped conviction

ST LOUIS Aug 31 Jimmy Carroll and four men supposed to be those who assisted in his rescue last night from Sheriff Roach in East St Louis were arrested this evening at Venice four miles north of this city Carroll and his four companions were making their way up the river in a flat boat and had gone as far as Venice when they were arrested on suspicion and held to await identification

THE ROCK ISLAND TRAIN ROBBERY

CHICAGO Aug 31 Five tramps Cleveland Charley Capt Fibbs Buck Henry Jack Williams and an unknown are now believed it is stated by detectives to-night to be the perpetrators of the Rock Island train robbery last March when messenger Nichols was killed and $ 0 000 stolen from an express car Cleveland Charley and Capt Fibbs are at present under sentence to the Waupun penitentiary for burglary committed in Milwaukee and detectives are close on the track of the others The first clue it is said was obtained from the keeper of a tramp lodging house in Chicago whom Cleveland Charley gave bonds to hold his clothing taken until called for Further details are withheld by the officers

BEATEN BY SHARPERS

INDIANAPOLIS Aug 31—The *Journal* Columbus Ind special says that Wm McClintock an old and wealthy farmer was to-day induced by two sharpers on some mild pretext to come to this city and draw $ 00 from the bank. In company with these men he started on his return, and when a few miles out they beat and robbed the man and threw him out on the road His failure to return home caused a search to be made and he was found where he had been thrown by the thieves He is so badly beaten and excited that he is unable to give an intelligent account of the robbery

DEMOCRATIC STATE CONVENTION

SAN FRANCISCO Aug 31—At the convention hall delegates and visitors to the democratic state convention began to arrive as early as 10 o clock The galleries set apart for visitors were well filled A few ladies are present At this hour 3 15 P M the convention has not yet been called to order It is now understood that W Green Curtis of Sacramento and S M White will be the only nominees for temporary chairman It is also stated that this has been agreed upon for the purpose of testing the question whether this convention will support the action of the Stockton convention of two years ago by the election of White or select Curtis who is known as an independent candidate Curtis s chances for the office are considered excellent

The democratic state convention met at five minutes past this afternoon in the main hall of the new Odd Fellows building on Market street The convention will nominate a full state ticket, three associate justices of the supreme court and congressmen The Western Union Telegraph company has run a telegraph wire into the convention hall for the special use of the associated press in order to expedite the report to the interior papers

The convention was called to order by W D English chairman of the state central committee His speech was confined to saying that he had the honor of calling the convention to order and without further preliminary he announced that nominations for temporary officers were in order The vote for temporary chairman was as follows White 40 Curtis 24

The convention reassembled at 5 05 P M when Chairman White announced the committees Tr Coucher of Mariposa, is chairman of the committee on credentials Capt A M Burns of San Francisco is chairman of the committee on permanent organization and order of business and Barclay Henley is chairman of the committee on platform and resolutions The convention then adjourned until to-morrow at 10 A M

ADVANCE IN WHEAT

SAN FRANCISCO Aug 31—Owing to dispatches published this morning of the possibility of an immediate European war the wheat market was strong and active For buyer season wheat opened on the morning's board at $1 42½ and steadily advanced to $1 41 at which it closed

HEARST AND STONEMAN DECLINE

SAN FRANCISCO Aug 31—Ex Senator George Hearst and Gov Stoneman publish cards in this morning's *Examiner* positively refusing to be candidates for the nomination for governor before the democratic state convention which meets this afternoon

THE CANADIAN PACIFIC CUTTING

The Canadian Pacific is said to be cutting heavily in freight rates and in some individual cases from 90 cents per hundred to 60 cents On the last steamer ten carloads of freight left this city for shipment over the Canadian line

ARIZONA

GERONIMO'S TERMS OF SURRENDER

TOMBSTONE Aug 31—A Mexican who has arrived here from Geronimo's camp at San Bernardino ranch states that Geronimo informed him that the terms under which he would surrender to Gen Miles were that his two wives be brought back from Florida and that himself and nineteen companions be given a separate reservation Geronimo then added that if Gen Miles would not accept these terms he would refuse to surrender Gen. Miles and a large body of troops are hourly expected on the ground

WASHINGTON TERRITORY

SEATTLE

An electric fire alarm system is now in operation There are eight boxes in different parts of the city Pressing a button in the box sounds the alarm in the engine house

Post-Intelligencer Two men, William Esler and Peter Teache, a few days ago, while working on the right of way for the N P R R Co, near the tunnel, where fires were raging, and while attempting to save their cabin, a tree fell on them, killing Esler and severely wounding Teache

ADAMS COUNTY

A prairie fire about a dozen miles east of Ritzville did considerable damage last week The house, barn, fences and crop of W F Schaffer were destroyed Loss about $15,000

E B Lemman, who located a ranch on Deer Valley Flat, twenty miles this side of Ritzville, last spring, and who for some time past has been prospecting for water, now reports that he has one of the best wells in Adams county The well is bored and is 1 4 feet deep The basaltic rock was found at a depth of seventy three feet. There is forty four feet of water in the well A windmill will be attached to do the pumping

WALLA WALLA

On Sunday P B Johnson received from Gov Squire a commission as penitentiary commissioner

Last week Mrs A W Sweeney's pet horse was stolen from the lady's barn together with a saddle and bridle

The tax levy of Walla Walla county for all purposes is only 12 mills Walla Walla's tax rate is the lowest in the territory

Fred Thiel has met with the misfortune of having his crop destroyed by fire It consisted of 140 acres of wheat and 0 acres of barley It was insured by Schwabacher Bros, for $ 0

COLUMBIA COUNTY

The sawmill on Lekler mountain, near Dayton, belonging to John Carter, formerly known as the Frary mill, was destroyed by fire at 5 P M Sunday About 70 000 feet of lumber was also burned, the total loss reaching about $2000 no insurance

Dayton *Chronicle* Jac b Schaum, of this city, arrested on a charge of violating the local option law, was held to answer in the sum of $ 00 for his appearance at the next term of the district court In default of bail he was committed to the custody of the sheriff He petitioned for a writ of habeas corpus, claiming to be illegally restrained of his liberty which has been forwarded to Judge Langford This will test the local option law

SNOHOMISH

The logging camp about two and one half miles above Snohomish City, belonging to W K Merwin and N Smith of this city was destroyed by fire on Wednesday Loss, something more than $ 00

Tacoma *News* There are at least 2 0 000 acres of bottom land in the Snohomish river valley Much of this land is at least 25 per cent stronger than the lands of the Puyallup valley Of this land perhaps 1000 acres is fresh water marsh land and 10,000 acres tide marsh land It is estimated that there are in Snohomish county at least 1,000,000,000 feet of timber uncut, and there have been marketed already over 500,000,000 feet on the upper courses of streams emptying into the Snohomish There are found coal, iron, lead, copper and silver in paying quantities. The export trade of the valley amounts to over $500 000, of which perhaps one-half is brought in by the sale of logs In the matter of hay alone the annual import trade is about equal to the export.

LINCOLN COUNTY

A little son of Mr Hutchins, of Mondovi was thrown from a horse last Monday and dragged and kicked to death

A man named John Gilbus fell into a well he was digging on his ranch, seven miles from Sprague, and broke his neck last week.

The Indians have flooded the market at Davenport with watermelons which they grow along the Columbia river in great quantities.

Eli Pettijohn, of Prescott, is under arrest at Sprague, charged with the larceny of a span of horses from Mr Sharp, of the Prescott neighborhood It is claimed that Pettijohn shipped the horses to Montana and sold them there

The Layton mills, in Cottonwood canyon, owned by Mr Signor, were burned by the spreading of a prairie fire last Saturday In addition to the mill, about 75,000 feet of lumber was burned, the total loss of which is estimated to be at least $5000.

Davenport *Times*. Young Cool and his pal, who stole Maher's horse a short time ago, were met the next morning by a gentleman about seventy-five miles northwest of here United States Deputy Marshal Roberts is now on their track and more than likely will overhaul the young rascals before many days and bring them to justice

BRITISH COLUMBIA

The Nanaimo, now at Moodyville is the first ark ever built in British Columbia. She was constructed at Nanaimo by Mr Carpenter and is a very staunch vessel, being substantially built of Douglas fir

The city council of Vancouver will get $ 000 from the Bank of British Columbia, at 8 per cent., to defray the current expenses of the city An additional sum of $50,000 is to be raised for the improvement of streets and laying out of sidewalks on all the principal thoroughfares in town

Mr Joseph Spratt has not definitely decided whether or not to rebuild his guano factory at Coal Harbor but, should he rebuild, it will be a smaller establishment than the last. The debris of the old building is being removed Mr Spratt's net loss was $31 0 All the valuable machinery is worthless

FARM NOTES

Lincoln county *Times* The oat crop through the country is said to be much lighter than usual this year but farmers console themselves that they will command a figure that will in a degree offset the limited yield

J T Hallett, of Dilley, reports a yield of eighty five bushels of wheat to the acre on twenty two acres of beaver-dam land The story is duly attested by the affidavits of the entire crew of threshers Mr Hallett, writing to the *Hillsboro Independent*, says "This field was sown the last of October, 1885, two thirds ... Old White winter wheat I kept it pastured down until about the middle of May He adds, by way of postscript "My new ... threshed 1000 bushels of the same wheat in just four hours

DR. JOHN BULL'S

Smith's Tonic Syrup

FOR THE CURE OF

FEVER and AGUE

Or CHILLS and FEVER,

AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever or Chills and Fever, whether of short or long standing He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases Usually this medicine will not require any aid to keep the bowels in good order Should the patient, however, require a cathartic medicine after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient Use no other
